

Dear FCC,

I subscribed to Satellite radio because I was displeased with the lack of local radio program choices that were available to me. I have been a subscriber for over one year and am amazed at the quality and amount of programming now available from which to choose. I have not the benefit of local traffic yet through XM. But I have used the service when traveling and it by far excels over what the local bradcasters are producing!

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide this kind of programming...

Please leave the choice with the consumer!!!!

Sincerely,

Richard Sack
